

TIC of LV electrical installation

Part 5: Observations, Recommendations and Summary

Section 1: Extent and limitations of inspection and testing :

Extent of installation covered by this Report:	323
Agreed limitations including the reasons:	3233
Agreed with:	232
Operational limitations including the reasons:	3232

The inspection and testing detailed in this report have been carried out in accordance with IEC60364. It should be noted that cables concealed within trunk/trench and conduits, under floors which are generally within the fabric of the building or underground, have not been inspected unless it is specifically agreed between the client and inspector prior to the inspection :323

Section 2: Observations

Referring to attached inspection report and test results and subject to the limitations specified at the extent and limitations of inspection and testing: The following observations are made

Observations	Further actions	Reference number in report	Comment
ewewe	C1 – Danger present. Risk of injury. Immediate remedial action required	23232	2323
2323	C2 – Potentially dangerous – urgent remedial action required	2323232	3232323
23232	C2 – Potentially dangerous – urgent remedial action required	23232	232323
23ewewe	C1 – Danger present. Risk of injury. Immediate remedial action required	2323	2323232

Section-3: Recommendations

The overall assessment of the suitability of installation for continuous use is stated as unsatisfactory, I/We recommend that any observations that are classified as “danger present” (Code C1) or “potentially dangerous” (Code C2) should be acted upon as a matter of urgency.

Investigation without delay is recommended for observations which are identified as “Required further investigation”. Observations classified as “Improvement recommended” (Code C3) should be given due consideration. Subject to necessary remedial action being taken, I/We recommended that the installations should be further inspected and tested.

Date: 2021-09-06

Section-4: Summary And Conditions Of The Installation

General condition of the installation in terms of electrical safety: 2323

Overall assessment of the installation in terms of suitability on continuous use: Unsatisfactory

Section 5:Declaration

I/we being the person responsible for the inspection & testing of the electrical installation (as indicated by my/our signatures below), particulars of which are described in this report, having exercised reasonable skill and care when carrying out the inspection and testing, hereby declare that information in this report including the observations provides an accurate assessment of condition of electrical installation taking into account the stated extent and limitations in part 5 of this report
